-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/18/09 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It's not clear what scope and meaning of "more elastic" should include as it's used in the claim, ie material deforms elastically under less stress than other material, bolt deforms under less load than sleeve, material is capable of greater elastic elongation than other material, bolt is capable of greater elongation within elastic range than sleeve. Similar consideration applies to limitation of claim 4. Clarification and/or correction is required.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 5,690,456 to Wedellsborg.

6. Weddellsborg '456 teaches Applicant's claim limitations including : a "first element to be braced" - 12, a "second element to be braced" - 14, a "bracing bolt" - 16, "is strained to its yielding point" – as described at paragraph 19 of Background of the Invention and par 21 of the Detailed description for example wherein reference goes on to describe breaking of the bolt at par 22, a "sleeve" - 28, "a "sleeve tensioning device" – including 40.

7. As regards claim 7, reference describes the steps where it is examiner's position that "wherein" clause (last of claim) is functionally recited as a capability, not a step and that prior art having same arrangement as the presently-disclosed invention is inherently capable of such function for the same reasons.

***Allowable Subject Matter***

8. Claims 3 and 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

9. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection. Arguments regarding the relative elasticity of claimed elements is persuasive inasmuch as the prior art doesn't teach or provide motivation to choose relative elasticity as claimed.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Estremsky whose telephone number is 571 272-7055. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Victor Batson can be reached on 571 272-6987. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
